

## Heatset ink - LWC series

**MG 1800**  
**HG 800**  
**UNI 650**

The ink with maximum gloss gives the printer the possibility to get the best quality product.

The series is formulated for using at the highest printing speeds. The ultra modern binder gives the lowest possible misting properties.

It fulfills all the requirements of the award criteria for Blue Angel (RAL UZ-195 Edition January 2015).

### Special properties

- Fast drying
- Good rub resistance
- Excellent gloss
- Very good printing properties
- Minimum wash intervals
- Meets the ISO 2846-1 standard
- Very stable ink-water balance
- Formulated to be used with or without alcohol
